TŪPUNA MAUNGA O TĀMAKI MAKAURAU AUTHORITY

HUI 9 – 8 JUNE 2015

Open Agenda

Chair Paul Majurey Ngā Mana Whenua o Tāmaki Makaurau (Marutūāhu Rōpū)
Deputy Chair Hon Christine Fletcher QSO Auckland Council (Governing Body)

Members

Ngarimu Blair	Ngā Mana Whenua o Tāmaki Makaurau (Ngāti Whātua Rōpū)
Bill Cashmore	Auckland Council (Governing Body)
Tipa Compain	Ngā Mana Whenua o Tāmaki Makaurau (Marutūāhu Rōpū)
Chris Darby	Auckland Council (Governing Body)
Glenda Fryer	Auckland Council (Deputy Chair – Albert-Eden Local Board)
Grant Hawke	Ngā Mana Whenua o Tāmaki Makaurau (Ngāti Whātua Rōpū)
Dennis Kirkwood	Ngā Mana Whenua o Tāmaki Makaurau (Waiohūa-Tāmaki Rōpū)
Kit Parkinson	Auckland Council (Ōrākei Local Board)
Simon Randall	Auckland Council (Chair – Maungakiekie-Tāmaki Local Board)
Te Warena Taua MNZM	Ngā Mana Whenua o Tāmaki Makaurau (Waiohūa-Tāmaki Rōpū)
Andrew Bignell	Crown Representative

ITEM TABLE OF CONTENTS

- 1 Apologies
- 2 Declaration of Interest
- 3 Confirmation of Minutes
- 4 Integrated Management Plan
- 5 Tūpuna Maunga Annual Operational Plan
- 6 Weed programme over the Tūpuna Maunga
- 7 Health and Safety Register
- 8 Registers

(Quorum is 7 members, comprising the chair or deputy chair and 2 members appointed by the rōpū entities and 2 members appointed by Auckland Council)

Ngā Mana Whenua o Tāmaki Makaurau Collective Redress Act 2014

109 Functions and powers

- (1) The Maunga Authority has the powers and functions conferred on it by or under this Act or any other enactment.
- (2) In exercising its powers and carrying out its functions in relation to the maunga, the Maunga Authority must have regard to—
 - (a) the spiritual, ancestral, cultural, customary, and historical significance of the maunga to Ngā Mana Whenua o Tāmaki Makaurau; and
 - (b) section 41(2).
- (3) In exercising its powers and carrying out its functions in relation to the administered lands, the Maunga Authority must have regard to the spiritual, ancestral, cultural, customary, and historical significance of the administered lands to Ngā Mana Whenua o Tāmaki Makaurau.

[Emphasis added]

41 Maunga must remain as reserves vested in trustee

- (1) This section applies to each maunga once the maunga is—
 - (a) vested in the trustee under subpart 1, 2, or 3 of this Part;
and
 - (b) declared a reserve under any of sections 18 to 29, 33, and 39.
- (2) The maunga is held by the trustee for the common benefit of Ngā Mana Whenua o Tāmaki Makaurau and the other people of Auckland.

...

[Emphasis added]

Date: Monday, 4 May 2015
Time: 3:15pm
Venue: Gallery Room, 1st Floor
Manukau Civic Building
31-33 Manukau Station Road, Auckland

TŪPUNA MAUNGA O TĀMAKI MAKAURAU AUTHORITY HUI 8 – 4 MAY 2015 Open Minutes

Chair Paul Majurey Marutūāhu Rōpū (Ngā Mana Whenua o Tāmaki Makaurau)
Deputy Chair Hon Christine Fletcher QSO Councillor (Auckland Council)

Members

Ngarimu Blair	Ngāti Whātua Rōpū (Ngā Mana Whenua o Tāmaki Makaurau)
Bill Cashmore	Councillor (Auckland Council)
Tipa Compain	Marutūāhu Rōpū (Ngā Mana Whenua o Tāmaki Makaurau)
Chris Darby	Councillor (Auckland Council)
Glenda Fryer	Deputy Chair – Albert-Eden Local Board (Auckland Council)
Grant Hawke	Ngāti Whātua Rōpū (Ngā Mana Whenua o Tāmaki Makaurau)
Dennis Kirkwood	Waiohua-Tāmaki Rōpū (Ngā Mana Whenua o Tāmaki Makaurau)
Kit Parkinson	Ōrākei Local Board (Auckland Council)
Simon Randall	Chair – Maungakiekie-Tāmaki Local Board
Te Warena Taua MNZM	Waiohua-Tāmaki Rōpū (Ngā Mana Whenua o Tāmaki Makaurau)
Andrew Bignell	Crown Representative

1A Acknowledgement

Moved: Paul Majurey Seconded: Christine Fletcher

That the Tūpuna Maunga o Tāmaki Makaurau Authority:

- (a) acknowledge the huge contribution of Grant Taylor to the Maunga Authority from inception and his long service to the Auckland Council.

CARRIED

1 Apologies

Moved: Tipa Compain Seconded: Kit Parkinson

That the Tūpuna Maunga o Tāmaki Makaurau Authority:

- (a) accept the apology from Grant Hawke for early departure.
- (b) accept the apology from Ngarimu Blair for early departure.
- (c) accept the apology from Te Warena Taua for early departure.

CARRIED

2 Declaration of Interest

Members are reminded of the need to be vigilant to stand aside from decision making when a conflict arises between their role as a member and any private or other external interest they might have.

3 Confirmation of Minutes

Moved: Simon Randall Seconded: Glenda Fryer

That the Tūpuna Maunga o Tāmaki Makaurau Authority :

- (a) confirm the minutes of its meeting, held on Monday, 20 April 2015, as a true and correct record with the following amendment to the restatement: C1 Fees and Bonds Framework to include the report and attachment in the open hui minutes.

CARRIED

4 Motor vehicle restriction from the tihi of Maungawhau

Moved: Glenda Fryer Seconded: Chris Darby

That the Tūpuna Maunga o Tāmaki Makaurau Authority:

- (a) approve the budget of \$224,858.92 for Option 2 to implement a motor vehicle free tihi of Maungawhau / Mt Eden;
- (b) note the approved budget provides for costs associated with the automated bollards, streetscaping, modifying the accessway to allow for pedestrian and cycle access, and Puhi Huia Upper and Lower carpark design, development and roadmarking.

CARRIED

5 Long-term Plan 2015-25: Approval of budget for Tūpuna Maunga Operational Plan 2015/16

Moved: Bill Cashmore Seconded: Tipa Compain

That the Tūpuna Maunga o Tāmaki Makaurau Authority:

- (a) endorse the proposed 10 year budget in the draft Tūpuna Maunga Operational Plan 2015/16 and draft Long-term Plan 2015-25; and
- (b) agree to the Chair writing a letter to the Mayor advising him of the Maunga Authority's decision.

CARRIED

6 Quarterly Financial Report

Moved: Chris Darby Seconded: Christine Fletcher

That the Tūpuna Maunga o Tāmaki Makaurau Authority:

- (a) note the Quarterly Report.

CARRIED

7 Health and Safety Register

Moved: Dennis Kirkwood Seconded: Christine Fletcher

That the Tūpuna Maunga o Tāmaki Makaurau Authority:

- (a) note the incidents included in the Health and Safety Register (Attachment A of the agenda) and actions taken in response.

CARRIED

8 Registers

Moved: Chris Darby Seconded: Tipa Compain

That the Tūpuna Maunga o Tāmaki Makaurau Authority:

- (a) note the registers report.

CARRIED

Tipa Compain closed the meeting.

4.55pm

The Chairperson thanked Members for their attendance and attention to business and declared the meeting closed.

CONFIRMED AS A TRUE AND CORRECT RECORD
AT A MEETING OF THE MAUNGA AUTHORITY HELD
ON

DATE:.....

CHAIRPERSON:.....

Open Agenda

1 Apologies

No apology has been received.

2 Declaration of Interest

Members are reminded of the need to be vigilant to stand aside from decision making when a conflict arises between their role as a member and any private or other external interest they might have.

3 Confirmation of Minutes

That the Tūpuna Maunga o Tāmaki Makaurau Authority :

- (a) confirm the minutes of its meeting, held on Monday, 4 May 2015, as a true and correct record.

Integrated Management Plan

This report will be distributed under a separate cover.

Tūpuna Maunga Annual Operational Plan

Authors: Lily Clark, Advisor Maunga Authority, Scott de Silva, Manager Volcanic Cones

Purpose	The purpose of this report is to present the final Tūpuna Maunga Annual Operational Plan 2015/16 (Operational Plan) for approval.
Recommendations	Staff recommend that the Tūpuna Maunga o Tāmaki Makaurau Authority: (a) note the changes made to the draft Operational Plan; (b) approve the final Operational Plan; (c) note the focus areas for the Operational Plan 2016/17; and (d) note the next steps in relation to the Long-term Plan 2015-2025.

Background

1. The Tūpuna Maunga o Tāmaki Makaurau Authority (**Maunga Authority**) and Auckland Council must agree an Annual Operational Plan (**Operational Plan**) every year under section 60 of the Ngā Mana Whenua o Tāmaki Makaurau Collective Redress Act 2014 (**the Act**).
2. The Operational Plan provides a framework in which the Council will carry out its routine management functions for that financial year and sets out what the Maunga Authority can expect in terms of operational deliverables on the Tūpuna Maunga. The Operational Plan 2015/16 has been developed by the Maunga Authority and will be implemented by Auckland Council.
3. On 23 April 2015, at the Joint Deliberations meeting, the Maunga Authority and the Governing Body discussed public feedback received on the draft Operational Plan, including that the Tūpuna Maunga represent a significant opportunity for Auckland and that sufficient funding is required to commence the rejuvenation of the maunga.
4. At Hui 8 (4 May 2015) the Maunga Authority endorsed the proposed 10 year budget in the draft Operational Plan 2015/16 and draft Long-term Plan 2015-25.
5. The key programmes outlined in the Operational Plan include:
 - a. a capital and renewal program with a focus on protecting sites of significance and landscape protection;
 - b. developing an innovative Integrated Management Plan (**IMP**) that will set a vision for the future of these important taonga; and
 - c. community engagement and education through completing signage upgrades, kiosk information centre and website design.
6. Future Operational Plans will ensure implementation of the IMP's high level strategy at a tangible operational level.

Changes made to the draft Operational Plan

7. At Hui 3 (3 November 2014) the Maunga Authority endorsed the draft Operational Plan.
8. The majority of changes made to the draft version endorsed at Hui 3 have been around formatting, typographical errors, and ensuring decisions and timeframes are as up to date as possible. The version we are seeking your agreement to also incorporates feedback from the public consultation process that occurred in the context of the draft Long-term Plan 2015-25 (but is otherwise consistent with the version approved at Hui 3).
9. The substantive changes are captured in the table below.

Table 1: Amendments to the draft Operational Plan

<i>Page</i>	<i>Change</i>
3	Individual maunga are tracked in the contents page for ease of reference
12	Andrew Bignell has been added to the list of Maunga Authority members
23	The budget has been updated to reflect the LTP
25	New levels of service have been added
27	Community engagement and education is now a short term priority (as well as a medium and long term priority) following submissions on the LTP
35 - 114	Updated Maunga specific information to reflect changes in gate opening time and completed projects.

Focus areas for the future Operational Plan 2016/17

10. Officers will commence work on the Operational Plan 2016/17 in August 2015. Key focus areas are likely to be:
 - a. ensuring the statutory purpose of the Maunga Authority, Tūpuna Maunga Values, management principles and the strategic vision captured in the IMP are meaningfully translated into operational decisions, and the connection between the strategy/vision and operational decisions is evident;
 - b. fulsomely addressing the matters referred to in section 60 subsection 4 of the Act, including but not limited to facilitation of authorised cultural activities, educational programmes, and Ngā Mana Whenua o Tāmaki Makaurau programmes including iwi or hapū programmes and opportunities for members of Ngā Mana Whenua o Tamaki Makaurau to carry out or participate in any of the activities described in this section (i.e. strategic, policy and planning projects, and maintenance and operational projects); and
 - c. refining the quality and relevance of information contained in the document.
11. A further focus area could involve ensuring that information can be easily used by visitors to the Tūpuna Maunga, providing greater detail around budget expenditure and capital projects, ensuring information regarding assets on the maunga is relevant and easy to understand, and outlining tangible deliverables for the various categories, for example leases and partnerships.

Next steps in the Long-term Plan 2015-25 process

12. The Operational Plan aligns with the Long-term Plan 2015-2025 (**LTP**). On 7 May 2015 the Governing Body made final decisions on a budget of \$45,671,879 capital funding and \$30,733,031 operating funding over 10 years for the Maunga Authority.
13. The next steps are:
 - a. 8 June 2015 – the Maunga Authority approves the final Operational Plan with the budget set by the LTP; and
 - b. 25 June 2015 – the Governing Body adopts the LTP with a summary of the final Operational Plan.

Tūpuna Maunga Weed Control Programme 2015/16

Author: Scott De Silva, Manager Volcanic Cones

Purpose	The purpose of this report is to seek approval from the Tūpuna Maunga o Tāmaki Makaurau Authority (Maunga Authority) to undertake the proposed Tūpuna Maunga Weed Control Programme 2015/16.
Recommendations	Staff recommend that the Tūpuna Maunga o Tāmaki Makaurau Authority: (a) approve the Tūpuna Maunga Weed Control Programme 2015/16, including: i. the proposed budget allocation of \$250,000; ii. the use of biological controls for certain weeds; and iii. the proposed procurement plan.

Background

1. At Hui 1 (15 September 2015) the Tūpuna Maunga o Tāmaki Makaurau Authority (**Maunga Authority**) adopted the standard operating procedures and delegation manual. The manual requires the Maunga Authority to approve an annual weed programme. Auckland Council is responsible for the programme implementation, appointment of contractors, and compliance with relevant health and safety requirements.

Weed Control Programme 2014/15

Engagement with Ngā Mana Whenua o Tamaki Makaurau

2. In early 2014 Council officers consulted with the Tāmaki Collective regarding weed eradication priorities and control methods on the Tūpuna Maunga. This led to the development of a weed control programme incorporating Mana Whenua world views.
3. The 2014/15 Programme and methods were, as a result, strongly focused on protection and restoration of biodiversity, as well as a desire to limit agrichemical use on the Tūpuna Maunga.

Outcomes of the 2014/15 Programme

4. The 2014/15 Weed Control Programme has now been successfully completed on eleven of the Tūpuna Maunga. The total cost of implementing the Programme was \$155,000.
5. The Programme's key outcomes were that it:
 - a. resulted in an 80% reduction of herbicide in comparison to standard weed control methods;
 - b. targeted 56 weed species across the Tūpuna Maunga;
 - c. delivered 73 person hours of control per maunga; and
 - d. used an average of 1.5 litres of herbicide concentrate per maunga.
6. Three of the Tūpuna Maunga did not receive any control over this period:

- a. Takarunga / Mt Victoria, which has a no-spray policy in place under its current management plan;
- b. Matukutūruru / Wiri Mountain, which has recently been surveyed and is included in the 2015/16 Programme; and
- c. Rarotonga / Mt Smart, which has been surveyed and is to have a targeted programme developed.

Proposed Weed Control Programme 2015/16

7. The 2015/16 Programme will continue to prioritise the treatment of weeds identified as requiring urgent attention. Please see **Attachment A** for weed control priorities, recommended methods, and a budget breakdown specific to each maunga.

Budget allocation

8. Officers recommend a budget of \$250,000 for the 2015/16 Programme. The increase from 2014/15 reflects the additional funding obtained in the Long-term Plan 2015-2025.
9. The budget increase will be distributed across the Tūpuna Maunga that are already subject to weed control. In addition, weed control will be carried out on Takarunga / Mt Victoria, Matukutūruru / Wiri Mountain, and Rarotonga / Mt Smart. **Attachment A** shows the proposed budget breakdown across the Tūpuna maunga.
10. The proposed increase also allows the 2015/16 Programme to include medium priority weed species, as well as weed species located on sensitive and culturally significant sites such as tihi, pits, and terraces.

Biological controls

11. Officers recommend the use of biological controls as an option to manage certain weeds on the Tūpuna Maunga. Biological controls involve the release of insects or fungi that naturally prey on introduced pest plants. Approved releases are rigorously tested by Landcare Research for a minimum of five to ten years to ensure they do not adversely affect any native or primary production species.
12. Biological controls work well in targeting very large weed infestations that would take a long time to control using other methods. Species on Ōtāhuhu, such as tradescantia and ragwort, have been identified as viable weeds for targeting. Biological controls do not involve the use of herbicides, which Mana Whenua are eager to avoid.

Procurement plan

13. Officers propose that, in the absence of a Maunga Authority procurement policy, the procurement process for the appointment of contractors mirrors the Auckland Council procurement process. The procurement process will be a publicly advertised request for proposal for weed control services, with responses evaluated using the weighting attributes method.
14. The selected service provider will be contracted for a term of three years and reviewed annually against performance. The three year term will enable the successful candidate to invest in their business, staff, and capacity and capability. It will also ensure continuity of service, both in terms of the client-contract relationship and the methodology applied.

Recommendations

15. Officers recommend the Maunga Authority approves the proposed Weed Control Programme 2015/16, including:
 - a. the proposed budget allocation of \$250,000;
 - b. the use of biological controls for certain weeds; and
 - c. the proposed procurement plan.

Attachment A: weed control breakdown by maunga

Ōhinerau / Mt Hobson proposed budget allocation \$23,000.00

Pest plant	Priority	Recommended control method
Moth plant *	Urgent	Cut and stump treat
Chinese Fan Palm	High	Cut and stump treat
Crinum lily	High	Cut and stump treat
Hawthorn	High	Cut and stump treat
Japanese honeysuckle	High	Cut release and lower foliar spray
Olive	High	Cut and stump treat
Pampas	High	Selected foliar spray
Woolly nightshade anywhere on maunga	High	Cut and stump treat
Agapanthus	Medium	Selected foliar spray
Blackberry	Medium	Selected foliar spray
Cape Honeysuckle	Medium	Foliar spray – cut stump and treat where climbing
Chinese privet	Medium	Cut and stump treat
English ivy	Medium	Foliar spray – cut stump and treat where climbing
English ivy	Medium	Cut release and lower foliar spray
Jasmine	Medium	Selected foliar spray
Jerusalem cherry	Medium	Cut and stump treat
Tree privet	Medium	Cut and stump treat
Cape honeysuckle (Tecomaria)	Medium/Low	Cut release and lower foliar spray

Maungarei / Mt Wellington proposed budget allocation \$18,000.00

Pest plant	Priority	Recommended control method
Agapanthus	High	Selected foliar spray
bear's breeches	High	Cut and stump treat
Juvenile Cotoneaster	High	Cut and stump treat
German ivy	High	Foliar spray – cut stump and treat where climbing
gorse	High	Cut and stump treat
jasmine	High	Cut release and lower foliar spray
Madeira vine	High	Vial treatment
Mexican daisy	High	Selected foliar spray
moth plant*	High	Cut and stump treat
Pampas	High	Selected foliar spray
red cestrum	High	Cut and stump treat
Tradescantia	High	Manual – rake and bag
woolly nightshade	High	Cut and stump treat
Juvenile brush wattle	Medium	Manual – ring bark
cape ivy	Medium	Cut release and lower foliar spray
Juvenile Chinese privet	Medium	Cut and stump treat
climbing dock	Medium	Cut release and lower foliar spray
English ivy	Medium	Foliar spray – cut stump and treat where climbing
shrub balsam	Medium	Selected foliar spray
Smilax	Medium	Bio control likely already working (windblown leaf rust)

Pest plant	Priority	Recommended control method
Juvenile tree privet	Medium	Cut and stump treat
Kahlil ginger	Medium	Cut and stump treat

Maungawhau / Mt Eden proposed budget allocation \$40,000.00

Pest plant	Priority	Recommended control method
Bushy asparagus	Urgent	Cut and stump treat
Lily of the Valley vine	Urgent	Selected foliar spray
Chinese privet	High	Cut and stump treat
Tree privet	High	Cut and stump treat
Climbing dock	High	Cut release and lower foliar spray
Gorse	High	Cut and stump treat
Japanese honeysuckle	High	Cut release and lower foliar spray
Mistflower	High	Bio control likely already present (fungus and gall fly)
Elaeagnus	High	Cut and stump treat
Blackwood	High	Cut and stump treat
Jasmine	High	Cut release and lower foliar spray
Darwins barberry	High	Cut and stump treat
Taiwan cherry	High	Cut and stump treat
Blue morning glory	High	Vial method
Woolly nightshade	High	Cut and stump treat
Boneseed	High	Cut and stump treat
Tuber ladder fern	High	Selected foliar spray
Loquat	High	Cut and stump treat
Montpellier Broom	Medium	Selected foliar spray
Mexican Daisy	Medium	Selected foliar spray
Maderia vine	Medium	Vial treatment
Smilax	Medium	Bio control likely already working (windblown leaf rust)
Phoenix palm	Medium	Cut and stump treat
Brush wattle	Medium	Manual – ring bark
Sydney golden wattle	Medium	Manual – ring bark
Elephants ear	Medium	Cut and stump treat
Cape honeysuckle	Medium	Cut and stump treat
Jerusalem cherry	Medium	Cut and stump treat
Cotoneaster	Medium	Cut and stump treat
Pink headed knotweed	Medium	Selected foliar spray

Takarunga / Mount Victoria proposed budget allocation \$10,000.00

Pest plant	Priority	Recommended control method
Tree privet	High	Cut
Japanese honeysuckle	High	Cut
Japanese spindle tree	High	Cut
blue spur flower	High	Cut
elaeagnus	High	Cut
firethorn	High	Cut
moth plant	High	Remove pods

rhamnus	High	Cut
woolly nightshade	High	Cut

Te Tatua-a-Riukiuta / Big King proposed budget allocation \$28,000.00

Pest Plant	Priority	Recommended control method
Alligator weed *	Urgent	Selected foliar spray
Blue morning glory *	Urgent	Vial treatment where climbing. Foliar spray in pasture
Madeira vine	High	Vial treatment
Kahili ginger	High	Cut and stump treat
Isolated juvenile cotoneaster	High	Cut and stump treat
Pampas	High	Selected foliar spray
Woolly nightshade anywhere on Maunga	High	Cut and stump treat
Gorse	High	Cut and stump treat
Climbing asparagus	High	Cut release and lower foliar spray
Moth plant *	High	Cut and stump treat
Climbing dock *	High	Cut release and lower foliar spray
German ivy	Medium	Foliar spray – cut stump and treat where climbing
Cape ivy	Medium	Foliar spray – cut stump and treat where climbing
Isolated juvenile tree privet	Medium	Cut and stump treat
Juvenile Chinese privet	Medium	Cut and stump treat
Japanese spindle tree	Medium	Cut and stump treat
Jasmine	Medium	Cut release and lower foliar spray
Mexican daisy	Medium	Selected foliar spray
monkey apple	Medium	Cut and stump treat
tuber ladder fern	Medium	Selected foliar spray

Mount St John proposed budget allocation \$20,000.00

Pest plant	Priority	Recommended control method
Blue morning glory	High	Vial treatment
Gorse	High	Cut and stump treat
Phoenix palm	High	Cut and stump treat
Climbing asparagus	High	Cut release and lower foliar spray
Moth plant	High	Cut and stump treat
Woolly nightshade	High	Cut and stump treat
Apple of Sodom	High	Cut and stump treat
Holly	High	Cut and stump treat
Juvenile hawthorne	Medium	Cut and stump treat
Blackberry	Medium	Selected foliar spray
Japanese honeysuckle	Medium	Cut release and lower foliar spray
Chinese privet	Medium	Cut and stump treat
English ivy	Medium	Foliar spray – cut stump and treat where climbing

Jasmine	Medium	Cut release and lower foliar spray
Rhus tree	Medium	Cut and stump treat
Tree privet	Medium	Cut and stump treat
Tuber ladder fern	Medium	Selected foliar spray

Mount Roskill proposed budget allocation \$8,000.00

Pest plant	Priority	Recommended control method
Darwin's barberry	High	Cut and stump treat
Madeira vine	High	Vial treatment
queen of the night	High	Cut and stump treat
Woolly nightshade anywhere on Maunga	High	Cut and stump treat
Moth plant *	High	Cut and stump treat
Clematis flammula *	High	Selected foliar spray
Yucca	High	Cut and stump treat
Shrub balsam	High	Selected foliar spray
Firethorn	High	Cut and stump treat
asparagus fern	High	Cut release and lower foliar spray
climbing dock	High	Cut release and lower foliar spray
Blackberry	Medium	Selected foliar spray
Juvenile Chinese privet	Medium	Cut and stump treat
agapanthus	Medium	Selected foliar spray
periwinkle	Medium	Selected foliar spray
Gorse	Medium	Cut and stump treat
Juvenile tree privet	Medium	Cut and stump treat
Juvenile cotoneaster	Medium	Cut and stump treat
Juvenile hawthorne	Medium	Cut and stump treat
English ivy	Medium	Foliar spray – cut stump and treat where climbing
Taiwan cherry	Medium	Cut and stump treat
Juvenile coast banksia	Medium	Cut and stump treat
Boxthorn	Medium	Cut and stump treat
Juvenile monkey apple	Medium	Cut and stump treat
montbretia	Medium	Selected foliar spray
tuber ladder fern	Medium	Selected foliar spray
Phoenix palm	Medium	Cut and stump treat

Matukutūruru / Wiri Mountain proposed budget allocation \$10,000.00

Pest plant	Priority	Recommended control method
moth plant	High	Cut and stump treat
pampas	High	Selected foliar spray
brush wattle	Med	Manual control
woolly nightshade	High	Cut and stump treat
gorse	Med	Cut and stump treat
Chinese privet	High	Cut and stump treat
madeira vine	High	Vial method
German ivy	Med	Cut release and lower foliar spray
pine species	Med	Manual control

Sydney golden wattle	Med	Manual control
tree privet	Med	Cut and stump treat
Tasmanian ngaio	Med	Cut and stump treat
tradescantia	Med	Manual control
arum lily	Med	Cut and stump treat

Mount Albert proposed budget allocation \$20,000.00

Pest plant	Priority	Recommended control method
Montpellier broom	High	Cut and stump treat
Pampas	High	Selected foliar spray
Juvenile olive	High	Cut and stump treat
Juvenile holly	High	Cut and stump treat
Juvenile tree privet	High	Cut and stump treat
Jasmine *	High	Cut release and lower foliar spray
Climbing dock *	High	Cut release and lower foliar spray
Blue morning glory *	High	Vial treatment
Woolly nightshade anywhere on Maunga	High	Cut and stump treat
Juvenile Chinese privet	High	Cut and stump treat
Juvenile cotoneaster	High	Cut and stump treat
agapanthus	High	Selected foliar spray
arum lily	High	Cut and stump treat
cape ivy	High	Cut release and lower foliar spray
climbing asparagus	High	Cut release and lower foliar spray
climbing dock	High	Cut release and lower foliar spray
English ivy	High	Foliar spray – cut stump and treat where climbing
Japanese honeysuckle	High	Cut release and lower foliar spray
jasmine	High	Cut release and lower foliar spray
Moth plant	High	Cut and stump treat
Juvenile Taiwan cherry	Low	Cut and stump treat
Blackberry	Medium	Selected foliar spray
Gorse	Medium	Cut and stump treat
Darwin's barberry	Medium	Cut and stump treat
kahili ginger	Medium	Cut and stump treat
bear's breeches	Medium	Cut and stump treat
Japanese spindle tree	Medium	Cut and stump treat
montbretia	Medium	Selected foliar spray
tuber ladder fern	Medium	Selected foliar spray
Juvenile olive	Medium	Cut and stump treat
Juvenile Taiwan cherry	Medium	Cut and stump treat

Maungakiekie / One Tree Hill proposed budget allocation \$23,000.00

Pest Plant	Priority	Recommended control method
blue morning glory	High	Vial treatment
cotoneaster	High	Cut and stump treat
English ivy	High	Foliar spray – cut stump and treat where climbing
firethorn	High	Cut and stump treat
Japanese honeysuckle	High	Cut release and lower foliar spray
pampas	High	Selected foliar spray
rhus tree	High	Cut and stump treat
woolly nightshade	High	Cut and stump treat
Moth plant	High	Cut and stump treat
Climbing dock	High	Cut release and lower foliar spray
blackberry	Medium	Selected foliar spray
Japanese spindle tree	Medium	Cut and stump treat
Mexican daisy	Medium	Selected foliar spray
tradescantia	Medium	Manual – rake and bag
agapanthus	Medium	Selected foliar spray
artillery plant	Medium	Selected foliar spray
arum lily	Medium	Cut and stump treat
Juvenile Chinese privet	Medium	Cut and stump treat
elephants ear	Medium	Cut and stump treat
Italian arum	Medium	Cut and stump treat
montbretia	Medium	Selected foliar spray
Juvenile olive	Medium	Cut and stump treat
Juvenile tree privet	Medium	Cut and stump treat

Ōhūiarangi / Pigeon Mountain proposed budget allocation \$10,000.00

Pest plant	Priority	Recommended control method
German ivy	Urgent	Foliar spray – cut stump and treat where climbing
blue morning glory	High	Vial treatment
bushy asparagus	High	Cut and stump treat
Montpellier Broom	High	Cut and stump treat
Juvenile crack willow	High	Cut and stump treat
green cestrum (suspected)	High	Cut and stump treat
Juvenile grey willow	High	Cut and stump treat
Madeira vine	High	Vial treatment
moth plant*	High	Cut and stump treat
woolly nightshade	High	Cut and stump treat
Japanese spindle tree	High	Cut and stump treat
gorse	Medium	Cut and stump treat
English ivy	Medium	Cut release and lower foliar spray
jasmine	Medium	Selected foliar spray
kahili ginger	Medium	Cut and stump treat
blackberry	Medium	Selected foliar spray
boxthorn	Medium	Cut and stump treat
Juvenile Chinese privet	Medium	Cut and stump treat

Darwin's barberry	Medium	Cut and stump treat
hawthorn	Medium	Cut and stump treat
Japanese honeysuckle	Medium	Cut release and lower foliar spray
Juvenile monkey apple	Medium	Cut and stump treat
sexton's bride	Medium	Cut and stump treat
Juvenile Taiwan cherry	Medium	Cut and stump treat
Juvenile tree privet	Medium	Cut and stump treat
tuber ladder fern	Medium	Selected foliar spray
convolvulus	Medium	Cut release and lower foliar spray
Smilax	Medium	Bio control likely already working (windblown leaf rust)
Bears breeches	Medium	Cut and stump treat

Ōtāhuhu / Mount Richmond proposed budget allocation \$25,000.00

Pest plant	Priority	Recommended control method
African fountain grass	High	Selected foliar spray
arum lily	High	Cut and stump treat
Juvenile brush wattle	High	Cut and stump treat
Juvenile Chinese privet	High	Cut and stump treat
Juvenile cotoneaster	High	Cut and stump treat
English ivy	High	Foliar spray – cut stump and treat where climbing
Italian arum	High	Cut and stump treat
Japanese honeysuckle	High	Cut release and lower foliar spray
Japanese spindle tree	High	Cut and stump treat
Madiera vine	High	Vial treatment
moth plant	High	Cut and stump treat
pampas	High	Selected foliar spray
smilax	High	Bio control likely already working (windblown leaf rust)
tradescantia	High	Manual – rake and bag
Juvenile tree privet	High	Cut and stump treat
woolly nightshade	High	Cut and stump treat
boxthorn	Medium	Cut and stump treat
Juvenile olive	Medium	Cut and stump treat
agapanthus	Medium	Selected foliar spray
barberry	Medium	Cut and stump treat
blackberry	Medium	Selected foliar spray
Juvenile crack willow	Medium	Cut and stump treat
gorse	Medium	Cut and stump treat
Juvenile hawthorn	Medium	Cut and stump treat
jasmine	Medium	Cut release and lower foliar spray
Juvenile monkey apple	Medium	Cut and stump treat
periwinkle	Medium	Selected foliar spray
Juvenile Phoenix palm	Medium	Cut and stump treat
Juvenile Port Jackson fig	Medium	Cut and stump treat
Apple of Sodom	Medium	Cut and stump treat

Māngere Mountain proposed budget allocation \$10,000.00

Pest plant	Priority	Recommended control method
agapanthus	High	Selected foliar spray
arum lily	High	Cut and stump treat
barberry	High	Cut and stump treat
blue spur flower	High	Cut and stump treat
Juvenile Chinese privet	High	Cut and stump treat
cotoneaster	High	Cut and stump treat
elephants ear	High	Cut and stump treat
English ivy	High	Foliar spray – cut stump and treat where climbing
Japanese honeysuckle	High	Cut release and lower foliar spray
Japanese spindle tree	High	Cut and stump treat
Jasmine	High	Cut release and lower foliar spray
Loquat	High	Cut and stump treat
moth plant	High	Cut and stump treat
pampas	High	Selected foliar spray
Phoenix palm	High	Cut and stump treat
smilax	High	Bio control likely already working (windblown leaf rust)
Juvenile Taiwan cherry	High	Cut and stump treat
Juvenile Tasmanian ngaio	High	Cut and stump treat
Juvenile Queensland poplar	High	Cut and stump treat
woolly nightshade	High	Cut and stump treat
arum lily	Med	Cut and stump treat
Boneseed	Med	Cut and stump treat
Juvenile brush wattle	Med	Manual – ring bark
Gorse	Med	Cut and stump treat
Italian arum	Med	Cut and stump treat
Juvenile monkey apple	Med	Cut and stump treat
Montbretia	Med	Selected foliar spray
Juvenile Olive	Med	Cut and stump treat
Tradescantia	Med	Manual – rake and bag
Juvenile tree privet	Med	Cut and stump treat
tuber ladder fern	Med	Selected foliar spray

Rarotonga / Mount Smart proposed budget allocation \$5,000.00

Pest plant	Priority	Recommended control method
blue morning glory	High	Vial treatment
lantana	High	Cut and stump treat
Madeira vine	High	Vial treatment
moth plant*	High	Cut and stump treat
pampas	High	Selected foliar spray
Smilax	High	Bio control likely already working (windblown leaf rust)
woolly nightshade	High	Cut and stump treat
agapanthus	Medium	Selected foliar spray
brush wattle	Medium	Manual – ring bark
Juvenile Chinese privet	Medium	Cut and stump treat
climbing dock	Medium	Cut release and lower foliar spray
Juvenile cotoneaster	Medium	Cut and stump treat
elephants ear	Medium	Cut and stump treat
English ivy	Medium	Foliar spray – cut stump and treat where climbing
Japanese spindle tree	Medium	Cut and stump treat
montbretia	Medium	Selected foliar spray
Juvenile phoenix palm	Medium	Cut and stump treat
Juvenile Tasmanian ngaio	Medium	Cut and stump treat
tradescantia	Medium	Bio control active – no control until 2021
Juvenile tree privet	Medium	Cut and stump treat
tuber ladder fern	Medium	Selected foliar spray

Health and Safety Register

Author: Lily Clark, Advisor Maunga Authority
Scott De Silva, Manager Volcanic Cones

Purpose	This report updates the Tūpuna Maunga o Tāmaki Makaurau Authority on Health and Safety incidents identified in respect of the Tūpuna Maunga.
Recommendation	Staff recommend that the Tūpuna Maunga o Tāmaki Makaurau Authority (a) note the incidents included in the Health and Safety Register (Attachment A) and actions taken in response.

Background

1. At Hui 4 (1 December 2014) the Tūpuna Maunga o Tāmaki Makaurau Authority agreed that a register of Health and Safety incidents identified in respect of the Tūpuna Maunga should be created and updated for each subsequent Hui for noting.

Summary

2. Attachment A is the latest Health and Safety Register (which includes earlier summaries of Health and Safety incidents).
3. Only two Health and Safety incidents were reported in respect of the Tūpuna Maunga for the period since Hui 8 (4 May 2015), both at Maungawhau.
4. Of the two incidents reported, one was a near miss relating to vehicles ignoring the stop sign at the exit to Puhi Huia Road at Maungawhau. Officers are aware of this issue as it has already been reported by the Tāmaki Hīkoi guides. We will install two speed bumps at appropriate locations and continue to monitor the situation.

Ensuring the Tūpuna Maunga are healthy and safe places

5. It is important to think proactively about what we can do to make the Tūpuna Maunga healthy and safe places. Officers are starting to build a picture of the general nature of the health and safety issues that occur on the Tūpuna Maunga and will report back at Hui 10 (6 July 2015) with further advice on this topic.

**Attachment A
Health and Safety Register**

Hui reported to	Maunga	Summary of incident	Number of any near misses	Outcome of investigations into any incidents and near misses	Health and Safety management matters arising
Hui 9	Maungawhau	Vehicles and bicycles not stopping at stop sign at exit of summit road; potential for accident	1	The same issue has been reported by Tāmaki Hikoi guides and the Friends of Maungawhau	Will install two speed bumps at appropriate locations; continue to monitor the situation
Hui 9	Maungawhau	Volunteer complained about inadequate warning signs regarding the poor state of access tracks on Maungawhau	0	Many existing tracks are inadequate for varying reasons and require major redevelopment work, as well as warning signage in the interim	Have initiated a review of all existing tracks on maunga; will place warning signs on all entrances while awaiting the outcome of the review
Hui 8	Maungawhau	A Hikoi guide working on Maungawhau advised park staff he intended to abseil down Batger Quarry to inspect the work being carried out by contractors	0	Staff spoke to the guide to inform him he is not authorised to abseil down the quarry due to the associated health and safety risk and that any monitoring of the works would be completed by the engineers	Health and safety matter resolved
Hui 8	Takarunga	Contractor parked ride-on mower on slope and lost control, the mower travelled down the slope and narrowly missed a visitor	1	Investigation underway	Will inform all contractors working on the maunga about the risks associated with machinery on slopes
Hui 8	Ohuirangi	Safety fence at summit that stops people going near quarry face has holes in it large enough for people to get through	0	Have engaged contractor to patch up holes in fence as soon as possible	The whole fence is on next year's asset renewal list

Hui reported to	Maunga	Summary of incident	Number of any near misses	Outcome of investigations into any incidents and near misses	Health and Safety management matters arising
Hui 7	Maungakiekie	Notified of the safety risks associated with pedestrians walking up Maungakiekie before sunrise coming into contact with vehicles. The security contract allows for a 90 minute window prior to official opening	0	Have discussed the issue with the individual and security company about opening times and risk pre-sunrise	Staff are working with security company to see if the gates can be opened closer to the 7am time and will install a shared space sign and speed sign
Hui 7	Maungawhau	Notified of risks to Friends of Maungawhau from working on steep slopes within Batger Quarry	0	Have contacted the individual and discussed the issue and any specific incidents	Staff are investigating issue and associated risks
Hui 7	Maungawhau	Notified of risks to Friends of Maungawhau from working on steep slopes within Batger Quarry	0	Have contacted the individual and discussed the issue and any specific incidents	Staff are investigating issue and associated risks
Hui 7	Otāhuhu	Notified of unsecure storm water lid that lifts during heavy rain	0	Have installed a temporary barrier around the lid to remove the risk and are looking at options to secure	Temporary barrier will remain in place until a permanent solution can be installed
Hui 7	Takarunga	Notified that safety barrier above Playcentre has failed and needs to be replaced	0	Have installed a temporary barrier to remove the risk and engaged a road engineer to complete an assessment	Temporary barrier will remain in place until a permanent vehicle barrier can be installed
Hui 7	Mt Roskill	Notified of risk of visitors falling off steep face opposite car park	1	Have completed the site inspection and risk assessment and deem the risk to be moderate	Will install temporary safety barrier to isolate the risk until a permanent solution can be investigated

Registers

Author: Lily Clark, Advisor Maunga Authority

Purpose	The purpose of this report is to provide the Tūpuna Maunga o Tāmaki Makaurau Authority with updated registers of: a. Public issues (Attachment A); b. Communications (Attachment B) c. Events (Attachment C); and d. Resource consents (Attachment D).
Recommendations	Staff recommend that the Tūpuna Maunga o Tāmaki Makaurau Authority: (a) note the attached Registers.

Public Issues Register

1. Attachment A shows the updated version of the Public Issues Register.
2. In the last period, two enquiries were addressed regarding vehicle restrictions to the tihi of Maungawhau on people with limited mobility.
3. Staff have responded to a report of soil erosion on the tihi of Maungakiekie and, as a result, have identified the need for a blanket resource consenting process on the Tūpuna Maunga to allow simple repairs to be undertaken in a timely manner.

Communications Register

4. Attachment B shows the updated version of the Communications Register.
5. Staff have received a request from the office of David Seymour, Leader of the ACT Party, under the Local Government Official Information and Meetings Act 1987. The request was for reports received by the Maunga Authority indicating damage caused to the tihi of Maungawhau by motor vehicles. A response from Justine Smith was issued on 21 May 2015. ACT has not yet issued any public communication about this.

Events Register

6. Attachment C shows the updated version of the Events Register.
7. In the last period, three applications have been granted.

Resource Consents Register

8. Attachment D shows the updated version of the Resource Consents Register.
9. This Register captures resource consent applications that have been approved or rejected by the Resource Consents Department in the last period in areas around each

of the Tūpuna Maunga. The areas take into account the physical extent of the cones, both existing and historic, and the surrounding lower slopes.

10. Thirteen resource consent applications were processed by Auckland Council - 10 were approved, two were rejected, and one was withdrawn by the applicant. The applications were somewhat concentrated near Maungakiekie (six out of the total thirteen).
11. One application for significant works was approved near Maungarei. The application is for the construction of a new apartment building at 66-80 Brian Slater Way, Stonefields.

Attachment A
 Public Issues Register

Hui	Maunga	Item	Description	Actions Taken	Link to broader issue or strategy
Hui 9	Maungawhau	Impact of vehicle restrictions on people with limited mobility	Enquiry regarding the pending restrictions on motor vehicles to the tihi of Maungawhau and vehicle access for limited mobility	Responded to the individual explaining the rationale for restricting motor vehicles	Vehicle restrictions to the tihi
Hui 9	Maungawhau	Impact of vehicle restrictions on people with limited mobility	Enquiry regarding the pending restrictions on motor vehicles to the tihi of Maungawhau and vehicle access for limited mobility	Responded to the individual explaining the rationale for restricting motor vehicles	Vehicle restrictions to the tihi
Hui 9	Otāhuhu	Motorcross bikes on the maunga	Member of public has advised of motorcross bikes accessing the park on weekends and using as a track	Chains have been put across entrances where access could have been gained; staff will continue to monitor situation	Bikes on the maunga
Hui 9	Maungawhau	Unstable rocks above road	Report received regarding small rocks falling onto Clive Road	The few small rocks were cleared off the road immediately; temporary restraining mesh has been installed	Staff are investigating future work requirements to secure the area from rockfalls
Hui 9	Te Tātua-a-Riukiuta	Off leash dogs on the maunga	Resident complained that the recent re-opening of a formerly privatised access to the maunga had increased the presence of dogs in this off-leash area	Staff spoke to resident; found that the boundary fence has vertical palings of 1.8 metre high and is in serviceable order	Dogs off-leash on maunga

Item 8

Hui	Maunga	Item	Description	Actions Taken	Link to broader issue or strategy
Hui 9	Te Kopuke	Creation of BMX track	Advised by contractors that a small BMX track had been created, probably by children during school holidays	Staff have requested contractors to move any removed top-soil back to its original location, and then to sow the area heavily with grass seed; the site will be monitored	Ad hoc tracks being created on the maunga
Hui 9	Maungakiekie	Erosion	Erosion of soil surface found on the tihi of Maungakiekie	As an interim measure we have instructed contractors to sow grass seed and cover the affected area with cloth to aid germination and mitigate rainfall-erosion while keeping people off this small area; the necessary long-term solution will involve applying for consent for on-site protection works; a no-digging policy applies here	Need to investigate a blanket consenting approach to the maunga that would allow for simple repairs to be undertaken within a timely manner
Hui 8	Maungawhau	Theft	The Consulate General wrote to His Worship the Mayor stating twelve Chinese tourists reported incidents of personal belongings being stolen or vehicles being smashed at Maungawhau in February 2015	We are working with Police to address these security concerns	Continue to monitor the issue around security
Hui 8	Maungawhau	Vehicle restrictions	Enquiry regarding the pending closure of motor vehicles to Maungawhau	Responded to the individual explaining the rationale for restricting motor vehicles	Vehicle restrictions
Hui 8	Maungawhau	Unauthorised event	Complaint about an event in Tahaki Reserve on Tuesday nights between 9:00pm and 12:00am	Called individual and informed her there were no authorised events for that period; have organised for the security company to carry out a patrol on Tuesday nights	Events

Hui	Maunga	Item	Description	Actions Taken	Link to broader issue or strategy
Hui 7	Maungarei	Re-vegetation	Enquiry as to whether the Maunga Authority will re-vegetate Maungarei	Explained program for trailing plant species appropriate for the Maunga	Ensuring the integrity of ecosystems on the Maunga
Hui 7	Takarunga	Mountain biking	Enquiry regarding the management of mountain bikes	Discussed current management of mountain biking and the need to address such activities in the IMP	Appropriateness of mountain biking to be addressed as part of the IMP
Hui 7	Māngere Mountain	Theft	Approximately 200 metres of high tensile wire stolen from Memorial Hall car park	Engaged contractor to replace fence in order to secure car park over the weekend	Continue to monitor issue around security
Hui 7	Te Tātua-a-Riukiuta	Supply of water for dogs	Enquiry about the supply of water for dogs	Informed member of the public that at this stage we are not looking at installing any additional infrastructure	None
Hui 7	Maungawhau	Abusive behaviour	Member of public abusive toward Hikoi Guide		None
Hui 7	Maungakiekie	Planting of tree on Maungakiekie	Enquiry about when the tree on Maungakiekie will be planted	Explained the new authority and decision making process	Planting of tree on Maungakiekie to be tabled for discussion by the Maunga Authority at a later date
Hui 7	Maungawhau	Bus parking and unloading	Coach unloading passengers onto the road instead of at designated area	Line marking already in place; ongoing education of bus drivers by Hikoi Guides	Pedestrian safety regarding vehicles on the Maunga; will be addressed in context of vehicle access

Tūpuna Maunga o Tāmaki Makaurau Authority

MEDIA COVERAGE MAY 2015

Project lead	Justine Smith	justine.smith@aucklandcouncil.govt.nz 021 684 776
Communications lead	Mike George	mike.george@aucklandcouncil.govt.nz 027 212 4512

Media coverage April	<p>Media coverage has been very light this month.</p> <p>Devonport Flagstaff The Devonport Flagstaff has been the most active media outlet – they are committed to publishing any news about the Devonport maunga. Their May articles are attached below. They are continuing to quote Mike George as a Maunga Authority spokesperson despite clear instruction to attribute comments to the Chair or Scott De Silva, so some relationship work needs to be done there. Mike George will meet with them.</p> <p>David Seymour (ACT Party) LGOIMA David Seymour’s office submitted a LGOIMA request asking for the reports received by the Maunga Authority indicating damage caused to the tihī of Maungawhau by private vehicles. A response from Justine Smith (through the Chair) was issued on 21 May. ACT has not issued any public communication about this – but they may do.</p> <p>NZ Herald enquiry about filming and events fees and permits Wayne Thompson from the NZ Herald enquired about filming and events fees and permits on the Maunga. A response from Scott De Silva was provided 27 May.</p> <p>1 May – Mountain bikes back on Mt Vic (Devonport Flagstaff)</p> <p style="text-align: center;">Mountain bikes back on Mt Vic</p> <p>Mountain biking is back on Mt Victoria – for the time being. A sign banning off-road biking on the summit of Mt Victoria is gone. Auckland Council Volcanic Cones Manager Scott De Silva says the sign was originally installed after council received a number of public complaints about off-road mountain bikers. Maunga Authority spokesperson Mike George told the Flagstaff at the time that the authority did not need to consult the public on the ban as preventing damage was a routine management issue. But this month council, who co-manages the mountain with the authority, changed tack. “After further consideration, it was felt that decisions relating to off-track mountain biking should be addressed through the integrated management plan process, which is due to start this year. The sign was subsequently removed,” De Silva said. North Shore Ward Councillor Chris Darby told the Flagstaff: “Things have been sorted for now.” He said public feedback will be a crucial part of shaping the management plan and that council staff were keeping an eye on the graveyard area where some damage caused by bikes has been reported. De Silva said that “protection and conversation of the maunga are high priorities for the Maunga Authority who co-manages the cones with council. “Visitors are encouraged to consider the importance of protecting this taonga and to help minimise the impact of recreational activities on the maunga,” he said.</p>
-----------------------------	---

1 May – Ride-on mower goes walkabout (Devonport Flagstaff)

Ride-on mower goes walkabout

A large ride-on mower tumbled down the northern side of Mt Victoria last Thursday morning – without injuring its driver or morning walkers.

According to the mowing contractor, a member of staff had just finished his run on top of the cone near the mushrooms and parked the mower without securing the handbrake.

He walked off to check on something else and found the mower had disappeared when he returned. A female jogger alerted police after she spotted the upturned mower at the bottom of Mt Vic where an oak tree had stopped its fall.

Well mow me down... a contractor scrutinises the wrecked mower

Two officers combed the mountain looking for injured people, while a police helicopter that had been looking for a stolen car in Northcote came to assist by doing a couple of turns around the mountain.

1 May – Mt Vic vehicle ban possible (Devonport Flagstaff)

Mt Vic vehicle ban possible

Vehicle restrictions could be on the cards for Mt Victoria, says Maunga Authority chair Paul Majurey.

After resolving last week to keep Mt Eden free from vehicles, the authority is adopting a wait-and-see approach for extending the ban to other cones.

“The Maunga Authority will see how the experience of a motor vehicle-free summit plays out for Maungawhau/Mount Eden and only then look at the matter maunga by maunga – which will involve looking at the specifics for each maunga,” Majurey said.

The experience of Mt Eden’s ban will have a pivotal influence on future decisions, he said in a statement to the Flagstaff.

15 May – Stop spoiling our mountain (Devonport Flagstaff)

Stop spoiling our mountain

Over the last 10 years or so I have voiced my concern with regard to the state of Mt Victoria. I was relieved when mountain bicycles were forbidden and, since that time, the autumn rain and gentler sun has encouraged the grass to grow on the footpaths. Kikuyu has re-established itself over the uneven ground and grassy shoots are appearing.

Last weekend a mountain biker appeared, via the graveyard, and informed me that he was allowed to ride on the mountain again. This was confirmed when I read an article in The Flagstaff and I ask myself whether a member of the Maunga Authority ever actually walks on the paths where the damage of years can be clearly seen.

I would like to align myself with other protesters and say, “Stop spoiling our mountain,” to the short-sighted authority that has changed its mind about the use of the mountain to the detriment of its original purpose of ‘passive recreation’.

Susan Poulter

15 May – Fence to be replaced on Mt Vic

Fence to be replaced on Mt Vic

The old wire and baton fence running along the bend of the Mt Victoria summit road, bordering Devonport Primary School, is to be replaced.

It has been in a poor state of repair for some time.

Roger Giles, who walks across the mountain daily, picking up rubbish and weeding among many other things, says he has contacted council repeatedly on the issue over the years, without success.

However Maunga Authority spokesperson Mike George says that Giles, the school and couple of others recently raised

their concerns that the fence wasn't strong enough to protect the schoolchildren from a car running off the road.

"We are currently in the planning stage of replacing the fence with a more suitable roadside barrier and are seeking a civil engineer's recommendation.

"Due to the ongoing planning and consent requirements, the timeline of this project will be long enough that a temporary barrier was deemed suitable in the interim," George says. He could not confirm a date when the new fence would be built.

19 May – Mt Eden's Love Your Mountain Day cancelled

<http://www.stuff.co.nz/auckland/local-news/central-leader/68588136/mt-edens-love-your-mountain-day-cancelled>

19 May – Funding boost for Maunga Authority

<http://www.radionz.co.nz/news/te-manu-korihi/273984/funding-boost-for-maunga-authority>

21 May – Unelected Maori standover merchants bag \$80 million from ratbag council
